

2ND ACF SYMPOSIUM 2017

“INNOVATIONS FOR SUSTAINABLE CONCRETE INFRASTRUCTURES”

Themes and Topics:

- **Sustainability Design**
Durability design, service life design, life cycle design, design considering environment, etc.
- **Sustainable Materials for Concrete Construction**
Concrete, cement, cement replacing materials, aggregates, admixtures and other additives for sustainable construction.
- **Sustainable Construction Techniques**
New construction considering sustainability
- **Sustainable Technologies for Maintenance**
Sustainable technologies for inspection, testing, intervention, maintenance planning, repair materials, etc.
- **Codes, Standards and Concepts for Sustainable Concrete Construction**
- **Related Topics**

Symposium Chairman: Prof. Dr. Somnuk Tangtermsirikul, SIIT

Organized by:

**Symposium Date:
23-25 November 2017**

**Venue: Chiang Mai,
Thailand**

**Abstract Submission:
February 28, 2017**

**Full Paper Submission:
June 30, 2017**

**Early Bird Registration:
September 30, 2017**
